Growth Marketing | Paid & Organic Social | Creative Testing | Funnel & Attribution | CRM & Lifecycle

Growth marketer who makes the creative and proves what it did. I owned paid and organic social end to end at a healthcare startup, producing in-house video that cut cost per lead ~90%, and I back every campaign with structured testing, clean attribution, and CRM systems. I work AI-first, using LLM tools to move faster from creative idea to measured result. Native Spanish speaker with an MS in Business Analytics.

EXPERIENCE

BenefitScape | Sales Enablement and CRM Consultant, Natick, MA Apr 2026 – Jun 2026

- Architected a churn win-back campaign targeting 72 lapsed accounts from zero: segmented lists into tiers by contract value, wrote outreach templates, built Apollo.io sequences, and tracked results through Salesforce Campaigns.
- Audited 1,594 Salesforce accounts and 800+ opportunities, surfacing critical gaps (94% blank contract fields) and giving leadership its first data-backed case for mandatory CRM field requirements.
- Automated contact data entry across 2,000+ rows and uncovered missing contact records that made client manager activity invisible to leadership.

Bastille Networks | BI and Analytics Consultant, Boston, MA Mar 2026 – Apr 2026

- Built an executive Looker Studio dashboard tracking sales engagement across 107 target AI and data center accounts, giving leadership a live view of leads, contacts, opportunities, and deal value.
- Automated Salesforce to Google Sheets data flows with Zapier, eliminating near-daily manual exports and keeping pipeline reporting current without human input.

Entyre Care | Junior Growth Marketing, Boston, MA May 2025 – Dec 2025

- Owned paid and organic social end to end across Meta, Instagram, and TikTok for a ~\$10K/month acquisition budget generating ~4,000 monthly leads, monitoring CPL, lead quality (~20% qualified), and spend in daily dashboards.
- Produced in-house short-form video creative that outperformed agency-made ads, cutting cost per lead from ~\$200 to ~\$15 with a \$200 test budget and two hours of production, and reducing reliance on the external agency.
- Ran sprint-based experiments on creative, messaging, and landing flows (WordPress, Heyflow), lifting conversion ~15%; led a first-mover messaging test in a new state market, reframing the offer from support program to unclaimed financial benefit and improving CPL ~10-15%.
- Analyzed ~1,300 ad comments in Python to quantify sentiment by creative format and message theme, showing static ads drew ~1.5x the negative rate of video and steering creative toward specific, narrative messaging.
- Designed organic social content in Canva, set up influencer campaign tests, ran reactive and seasonal campaigns (documentary trendjacking, National Family Caregiving Month), and wrote Spanish-language website and blog copy.
- Built AI-assisted automation for social comment response and engagement, cutting manual workload ~80%, and implemented UTM standards and GA4 conversion tracking for reliable attribution across campaigns.

Titleist Asset Management | Client Relationship Associate, San Antonio, TX Jan 2024 – Sep 2024

- Maintained CRM integrity across 300+ client records in Redtail, Wealthbox, and Black Diamond through cleansing, de-duplication, tagging, and segmentation, supporting 100+ accounts in a regulated environment.

Spurs Sports & Entertainment | Partnerships Project Management Intern, San Antonio, TX Jan 2023 – Jun 2023

- Developed sponsorship proposals and activation concepts used by the sales team in partner outreach, grounded in market and audience fit analysis.
